

ASA300 Swing Gate Motor

The ASA300 is our biggest selling swing gate motor with thousands installed on homes all over Australia. It's design and styling may be a little contemporary but like in all ASA products function comes before style. The engineering is solid, tried and tested over hundreds of thousands produced world wide. With a powerful DC motor this self locking actuator is a favourite of the DIY set as it is simple to install and only two wires to connect. The ASA300 can be used with any 12 volt logic control but the board we prefer is the K50 with room for battery backup in the top. The ASA300 is perfect with solar power and we have kits available with panel and battery.

TECHNICAL SPECIFICATIONS

POWER SUPPLY	240 Volts AC
MOTOR POWER	12 Volts DC – 50 Watts
SHAFT STROKE	300 mm
CYCLES / HOUR	40
OPERATING TEMPARTURE	-20C to +55C
WEIGHT	9.0 kg
MAXIMUM LEAF LENGTH	3.0 Metres
OPENING DEGREES	90 – 110 Degrees
SHAFT SPEED	1.9 centimeters / second
PROTECTION CLASS	IP43
MAXIMUM THRUST	1500 N
DIMENSIONS	670L X 90W X 185H
