

Readymade Gates—Save time and save money!

We have a range of readymade driveway gates which offer convenience and big savings. The range includes three designs and a range of sizes in both sliding gate kits and double and single swing gate kits. Manufactured from durable welded aluminium and finished in powder coat satin black. The kits come complete with hardware items as required like wheels, track or hinges and stops in the case of swing gates as well as the full automation kit.

These kits offer the best value in the country in terms of driveway gates as you literally cannot buy the components at these prices.

DRIVEWAY SWING GATE KITS

The hinged driveway gate kits range includes three different designs and three sizes from low maintenance aluminium with beautiful powder coat finish.

Perfect to secure the front driveway. All kits are ready to install with hinges, gate stops, automation kit including motors, control board, remote controls etc.

Optional extras are available to suit your personal taste and installation circumstances.

DRIVEWAY SLIDING GATE KITS

Choose from four size options in the sliding gate kit range which includes three different designs from low maintenance aluminium with beautiful powder coat finish.

All kits are ready to install and represent great savings on buying the components separately. Each kit includes the required track, wheels, support rollers, gate stops and a full automation kit including motor, rack and remote controls.

A full range of options are available to suit any installation or preference.
